

Create a resource group

Basics Tags Review + create

Resource group - A container that holds related resources for an Azure solution. The resource group can include all the resources for the solution, or only those resources that you want to manage as a group. You decide how you want to allocate resources to resource groups based on what makes the most sense for your organization. [Learn more](#)

Create a resource group

BasicsTagsReview + create

Apply tags to your Azure resources to logically organize them by categories. A tag consists of a key (name) and a value. Tag names are case-insensitive and tag values are case-sensitive. [Learn more](#)

Name	Value	Resource
CLOUD COMPUTING	: 123456	Resource group
AMAZON WEB SERVICE	: 123457	Resource group
PAAS	: 78901	Resource group
SERVICE PROVIDER	: 43535	Resource group
	:	Resource group
